*Helping you navigate challenges
to doing business.*

Lesinko Njoroge and Gathogo (LNG) Advocates is a Kenya-based Law Firm with a strong track record of delivering solutions in Commercial Corporate Law practices and Disputes Resolution. We counsel and represent domestic, regional and international clients drawn from Private Sector, Government entities, Corporations and Non-Governmental Organisations.

Our Attributes

Client focus

At LNG Advocates, clients' care and service underpin our Firm's goals, objectives and strategies. It is the reason that we spare no efforts in deploying our deepest expertise to help our clients navigate the most complex legal challenges. We genuinely care for our clients' success, firm in the conviction that when our clients succeed, we, too, succeed.

Team synergy

We leverage our wide-ranging and multi-disciplinary expertise to deliver high quality and progressive legal and transactional advice. We go beyond and tap the expertise of industry stakeholders and regulators for the benefit of our clients. In our regional and cross-border transactions, we deliver solutions by utilising expertise from our mutual-referral network of 'best friend' law firms.

Global standards

Our clients apply high standards in their businesses. So too do they expect and demand no less than the best professional service available in the market place. We are equal to the task and take pride in benchmarking our services against the global standards.

Sector knowledge

We walk and work hand-in-hand with our clients in identifying opportunities, challenges and threats in their operating environments, offering bespoke solutions accordingly. We think of ourselves as innovators of practical solutions and reject cut-and-paste prescriptions to our clients' pressing concerns.

Banking and Finance

Your legal partner in funding bankable ideas to fruition

Our Banking and Finance Practice Group walks hand-in-hand with the financial institutions to navigate the opportunities and challenges brought about by major shifts that continue to be witnessed in the market, policy, legal and regulatory landscapes, such as the onerous standards on reporting, transparency and accountability under diverse statutes and regulations as well as the disruptive FinTech comprising digital banking, mobile money, cryptocurrency and Blockchain, which are changing the traditional model of banking.
